COMMUNITY SUMMIT 2020: AGENDA AND OVERVIEW
PURPOSES

The Mayor and Town Council are seeking input from the community on your ideas for Normal's future as they update the Town’s Strategic Plan – a 15-year Vision – the preferred future; a 5-year Plan with outcome-based goals – map to the future; and a 1-year Action Plan – a "to do list" with deliverable products and results.

FIVE BASIC RULES

(1) Everyone's ideas and comments are important.

(2) Treat everyone with respect even if you disagree with their comment.

(3) Record everyone's ideas on the large sheets of paper.

(4) Star (*) the "most important" for your table as determined by a majority vote.

(5) Relax, enjoy yourself and make new friends.

AGENDA

1. WELCOME/OPENING REMARKS  
   Mayor and Town Council  
   City Manager

2. STRATEGIC PLANNING FOR NORMAL: OVERVIEW  
   Working Model  
   Connecting the "Dots"

3. ROUND 1: NORMAL TODAY

   Question 1: During the last years 2018-2019, what are the successes/achievements of the Town Government?

   Question 2: What are the reasons that you make the choice to live in Normal?
4. **ROUND 2: NORMAL'S FUTURE 2025-2035**

   **Question 3:** If you leave Normal today and returned in 15 years, what would you like to see in Normal?

   **Question 4:** In five years 2025, a Successful Normal Town Government means...?

   **Question 5:** During the next five years, what actions can be taken by the Normal Town Government to enhance community livability that you are willing to increase your taxes – willing to pay for them

4. **ROUND 3: NORMAL – THE NEXT YEARS**

   **Question 6:** During the next 12 months, the “To Do” list for the Mayor and Town Council needs to include what actions, ideas, issues or projects?

   **Question 7:** What is the best way for the Town of Normal to communicate with you?

5. **MESSAGE TO THE MAYOR AND TOWN COUNCIL**

   *Pick up a 3x5 card found on your table, write an open message to the Mayor and Town Council.*

   "To the Mayor and Town Council: ..."

6. **FINAL COMMENT**
   
   Mayor and Council Members
   City Manager

   *and THANK YOU VERY MUCH FOR YOUR CONTRIBUTION TO THE STRATEGIC PLAN AND THE FUTURE OF NORMAL!*

FRAMEWORK FOR STRATEGIC PLANNING
Governance vs. Politics: A Simple View

By Lyle J. Sumek

Governance is serving the community;
Politics is getting elected or re-elected.

Governance is being guided by vision, goals and value to the community;
Politics is being guided by ideology, a cause or philosophical principle.

Governance is shaping the community's future for the long term;
Politics is responding to the moment and current "crisis".

Governance is taking responsibility;
Politics is making promises.

Governance is exercising an ability to influence others;
Politics is the use of power.

Governance is finding pragmatic solutions to problems through collaboration;
Politics is starting with solutions in mind.

Governance is being data driven;
Politics is playing to people's emotions.

Governance is negotiating by trading off to find a workable compromise;
Politics is demanding and advocacy to win.

Governance is educating and mobilizing support;
Politics is rallying supporters and creating zealots.

Governance is creating community benefits and value;
Politics is taking personal credit and receiving personal recognition.

TODAY'S CRISIS: Politics trumping Governance

MESSAGES TO MAYOR AND CITY COUNCIL
# Messages to Mayor and City Council

I appreciate each of you putting yourselves in the “line of fire” for Normal’s future. I hope you return to a collaborative, respectful government. Stan this is not your personal reality show. You may have good ideas, but you need to humble up, shut up, listen, learn, and then respectfully engage. You have long term visions and plans created by a great amount of public input/work those plans.

Thank you for yet another opportunity to participate in the “governing” process. Please stay the course in Uptown and get us the underpass asap. My greatest interests lie in improving livability. We’re an increasingly mobile and will need reasons to choose to LIVE HERE IN THE FUTURE!

Thank you for having this summit. Have more of these as we move to 2020. Thanks for your service. Also, please let us know what’s next from here?

This event was good; do more of and add Q &A w/Council and Mayor. Two new Council Members should be less adversarial with other members/Mayor and especially with staff. Thanks.

Stop spending money, find ways to save and realize the effects of downsizing of business in the community. Try to work with the City of Bloomington to see what services can be combined. Stop the Uptown Development. Stop the sports complex. Start listening to the Citizens. Give more transparency by posting more info. Allow citizens to speak at Council meetings about any topics not just what is on the agenda.

Don’t be scared to have dissenting voices! Elect/select someone to the transit board (non-low income and/or with a disability. Could you – Would you: Live without a car for a week – walk or use public transit as you know what your constituents are going through. Make getting caught up with ADA requirements a priority – only 27 years ago. Transparency is a benefit – connection and “being human” is good – there are opinions in the community that many on Council/Mayor are out of touch – maybe you’re not – but you appear to be at times. Tonight was a good first step. Thank you for being on our Council!

Shannon

We can advertise Town of Normal (TON) as THE BEST place to live by humorously talking about “Normal”. Need for Koos to smile more.

Ensure Council meetings comply with open meetings act. Collaborate among government entities to better use expensive capital to other resources.

Keep forward momentum and emphasis on planning. Remember professionalism and decorum matters. Know there are not perfect decisions, and not one speaks for everyone.

<td>Take the long view – collaborate and don’t allow the Council to devolve into the divisive and parochial backbiting we see in Bloomington. Don’t be afraid to spend money on important projects. Rivian, the underpass. Normal has become an envied community in all of down State Illinois. Don’t allow this to fall by the wayside. Council Member should be talking to the community instead of just listening to their supporters. We have a great staff, very responsive, kudos to them.</td>

<td>THANK YOU for all you do for our community. Thank you for taking the long view, for waiting out the day’s “crisis”, for thinking of the environment, the next generation, those whose voices are less than often heard. Thank you for listening to your constituents, however stark the difference of opinion. Thank you for the example you set of public service, civic engagement, creativity, dedication. Thank you for the seemingly endless energy you bring – especially because I know it is not endless. Thank you for never being satisfied and for keeping your eyes on the horizon. Gratefully</td>

<tr>
<td>Kathy Arbogast</td>
<td>Thank you for all the hard work you do; it is very much appreciated. I would like to see better involvement with the ISU student community, helping them see Normal as their home. I would also like to see the Normal police doing more in the community instead of just handing out tickets. I know they do so much more, but people don’t see it. Let’s get them more visible for good reasons</td>

5. Govern not politic
6. Stable taxes

Your are all doing great work, but I worry that in our fast paced world and short attention spans that people don’t know what you do – and appreciate the challenges. Your investment in communications specialist should help you – please take the opportunity to increase your visibility.

Please stop spending money you don’t have, quality of life means nothing with debt weight you have incurred.

Steven Schaefer

1. Appoint Normal person to Connect Transit Board immediately
2. Explore and take action for better cooperation between Bloomington and Normal Fire and Police. Even consider combining of administrative personnel and possibly joint use of various police and fire facilities.

John Whitlow

I think that the Council does a nice job, but their needs to stop the incessant suggestions that the staff and other Council Member don’t know what they are doing. Thanks for all you do!!

Thank you for serving our community. It’s a difficult job and I appreciate what you do. Please make fiscally responsible decisions, hold the line on taxes and show respect for your fellow citizens.

‘Plan your work and work your plan’ is great for a dinner party or a house renovation. A multi-decade destroy and rebuild plan for the town center needs to adopt to economic changes and citizen input. Authoritarian central planning is a recipe for failure

Do “this” more often, once every quarter? What is next?

David Paul Blumenshine

Please make sure we are not kept out out of the loop, half truths do not go well with your citizens

Thank you for the opportunity to join this evening’s dialogue. I have greatly enjoyed connecting with all of my neighbors – those w/whom I agree as well as those with whom I differ. It’s been fascinating. I love Normal, and I appreciate all of the service you offer us. The best solutions coming from combing diverse pts. Of view – indeed this is much needed the county over

Julie Hile

1. Thanks for the long hours and hard work.
2. Look for ways to reduce expenditures rather than increase taxes.
3. Reduce debt and have a balanced budget.
Priority of every budget is basic services – earmark $ for road, fire, police, sewer, water – then balance. Stop the 96K communications director and that falls to Mayor and Council. Respond to citizen emails – I have never received a response. Connect Transit need smaller bus – can’t subsidize forever.

Now that you have all this information… Do something with it. Something has got to change… it’s time or you will be replaced.

- I really don’t care if you don’t like each other; but chk your crap at the Council door
- Don’ go back on votes (96K) w/o citizen input
- Underpass/overpass should be reconsidered
- Become more visible in the community
- Stop spending $ like it’s boom times, State Farm will have an impact
- Consider all input to this summit not just the invited ones
- Give back to the community my volunteering, which will make y’all more visible

Reduce the focus on Uptown and focus more on the rest of the city. Look at projects like improvements on business 51 through campus. Do a much better job of advising the community of what is going on. Prepare the Council agenda a week before Council meetings so Council and public can discuss before the meeting.

People are leaving IL because of high taxes and fees. All Normal does is continue to raise, raise, and raise taxes and fees. STOP – need to cut, cut, cut.

Jeff Lord

* Cut Spending
* Implement Ward System
* Stop Uptown Spending
* Join Blm/Normal Public safety (Police/Fire)
* Join School 87/Unit 5
* Fill Connect Seats
* Don’t Raise TAXES

Shut up and Govern, stop bickering and just do the job. Normal has done a great job in the past; just keep doing good for Normal. Chief Mick needs a raise

Logan Smith

Balance the budget. Spending should be restricted to necessary governmental functions. Departments should have to justify spending, cost cutting should be rewarded. Statement printing on both sides
Reduce paper 50%.

I would like to see “Uptown Normal Project” stop “as is” and not expand to the south. The underpass does not need to be a project needing to be done. We need to hold the line on spending, stop subsidizing RE. Takes off rent to “Uptown Businesses”

Jim Riker
Stop increasing our property taxes. Fund pensions whenever you find a new revenue source. Reduce debt – or at least don’t increase new debt.

Shirley Craig

It would mean a great deal to me, my family and other homeowners of Normal if you would find a way to reduce our property taxes. We need the relief. Respectfully submitted a long time resident

Thank you for having an open forum such as the one tonight 12/5. Very good to talk/debate with other citizens and meet people who work for the town! Ps. Tyler rocks!

Lindsey Mucciolo

Pay down the debt before moving on to anymore; Uptown Development

Fun evening: we do care about our Town. A moment in silent prayer before all Council meetings would be nice. We are all part of Gods plan. God Bless America

Greg Rackawskas

1. Reduce taxes by cutting “fluff”. Do not “revote” previous votes.
2. Eliminate underpass
4. Develop fiscally balanced budget – necessary items
5. Why was the proposal for “cuts” ignored?
6. Consider the majority, do not pander to “political correctness”

The challenge is continue the overall development and progress Normal has made while not overextending the City’s fiscal resources. Please consider educated opinions from all and make the most prudent decisions. Some decisions at first glance may not seem complementary (reserved vs. progressive) but done well they work out the best.

T.M. Arbogast

I’m requesting creative thinking about how you meet the financial needs. Choosing a tax increase in order to hire a staff member was not creative thinking. To pay for what you wish to do, do not default to tax increases. Think outside the box. Really scrutinize for waste.

Don’t spend money you don’t have. Put needs before wants. Run the town the same way you run your house budget.

1. I would suggest a total review of all major expenses/projects, new projects and prioritize.
2. Fix the roads!

Bill Crampton
